

## **Workshop Joiners with a difference**

If you are a highly skilled Workshop Joiner looking for something a little different - then we have the role for you...

You will be based at our modern joinery workshop, producing quality bespoke joinery for prestigious clients. You will also be expected to fit the joinery on-site when required.

At certain times throughout the year you will be given the opportunity to work in our innovative fixture maintenance programme. This will entail travelling to major cities throughout the world for short periods, working in-store for one of the world's largest retail brands. You will obtain full training for this and receive a premium salary.

The role has the opportunity for progression in that you may become one of our training engineers, travelling to other countries and re-training and auditing our worldwide partners.

Somerville is a thriving company with big ambitions. We value the people who work for us and after a qualifying period we offer a number of employee benefits including private healthcare, pension and cycle to work scheme.

In order to be considered for the role you must possess:

- Experience in producing high end joinery for demanding clients;
- The capability of working to demanding deadlines;
- A willingness to train in new techniques and open to taking instruction;
- The ability to operate within the standard recognised Health and Safety policy;
- The ability to work within our internal quality system, ensuring high standards of production is maintained, through to the finished product stage;
- The ability to take instruction from the Workshop Manager and carryout all tasks in a professional and efficient manner;
- A flexible approach, working away from home for short periods from 3 days up to 2 weeks;
- Enthusiasm and take great pride in your work and everything you do.

If you are interested in this role, please send your CV to [david.m@somervilles.co.uk](mailto:david.m@somervilles.co.uk) by 4<sup>th</sup> May 2017.
